#### COTTON MARKETS

Mere treuble for the cotton wars and shorts was had today and prices at their creat were over his his bale above the recent low level. The contributing factors to the upture, which was over 100 points from the low made just after the opening, was had weather in the Southwest over the week-end and better news regarding the steel workers with than had been expected. It appeared that the number of men refusing to work in response to the call for the strike was disappointing, or such was the ciaim of those in best position to the markets. Futures closed 127 to 135 points up, too steady.

New Orleans spots were 75 points up, too steady.

New Orleans spots were 75 points up, too steady.

optimism.

The weather reports were very prominent in stimulating abort covering, for there were generally heavy raits in the Southwest, which is favorable for insert activity out there and thus caused builtsh expectations as to the coming conditions reports. The promise of cooler weather to follow the raina also helped to scare some of the chorts, although it was not thought by well posted folks that such would do any harm. The rains in some sections did not burt any, although in Afkansas only barm. The rains in some actions did not hurt any although in Arkaneas some districts had entirely too much for the good of the cotton open. The indication was for some cooler and perbaps more rains eastward, but the bulls

on the rains in Texas and alnis, while better news as complaints, while better level strike also figured. Finals over were firm at a net gain of 16 points, whereas declines of 15 to re due. Spots were marked off nts, middling to 18 47d, with sales bales, including 3,960 American.

First prices on this side were highes, due to the weather news over the weak-con, December starting in New York at 2015. But uncestiness over the strike encouraged liquidation and the market dipped to a little under the previous close. December touching 30:. That proved bottom and the improvement was steady the reat of the day, 31.29 being recorded for December in the way up, but entiment was more than any up, but entiment was more builted than for some time.

NEW ORLEANS, Sept. 22.—Heavy rains in the western belt and threatened cold weather after the moisture put the price of cotton 18 to 28 points up around the opening call today. Heavy selling met the advance, resulting from uncertainty over conditions in the steel industry, and at the and of the first half hour of trading prices were 1 to 2 points under Baturday's close on the most active months.

Rumors that the steel walkout had not affected a gree percentage of men caused heavy buying. Late in the morning prices were 72 to 80 points giber than the final quotations of Satage in the western belt, following too much moisture, kept the advance go-ing. In the trading up to 1 o'clock the advance was widened to 128 to 131

#### GRAIN MARKETS

CHICAGO, Sept. 22.—Corn prices moved upward today as a result of covering by shorts who took the position that the bearish effects of the steel strike had been discounted beforehand. Opening figures, which ranged from the same as Saturday's close to 11%c higher, with December 51.22% to 51.33 and May 51.21 to 51.21%, who followed by a slight reaction and then by a substantial upturn all around.

The market closed strong, three to three and one-half cents net higher, with Dec. 51.25% to 51.25% and May 31.23% to 51.25% and May 31.23% to 51.25% to 51.25% and May 31.23% to 51.25% and figher, including December at 69c, the market sagged a little, and then rose higher than at first.

Provisions were governed by the action of grain and hogs.

No important setbacks took place in the later dealings.

New York—Cone sold 50 December, otherwise market small: not much out-side buying.—Clevenburg to Cotter & Turner.

New York—Locals sold on strike; Liverpool bought on weather; traders expecting decline on labor situation.—Hubbard to Reese.

New Orleans—Map indicates unsettled, rainy weather in belt, temperatures will drop under 50 over North Texas, Oklahoma and Arkansas tonight.—Kofler to Clark & Co. New York—Locals covered on reports strike not as general as feared. Mc-Padden has very bullish crop reports, also influencing market.—Hubbard to Reese.

New Orieans—Some uneasiness over strike, blu bad weather in west with unreasonably cold wave approaching from nothwest checks bearish enthu-siasm.—Fenner to Gustafson.

New York—Strike news mixed; some mills apparently running full, others claims mostly quit. This situation causing considerable liquidation, but being absorbed by short covering on adverse crop news.—Gwathmey to Foster. New Orleans.—Market strong on press news that 90 per cent of steel work-ers remained at wor\*. Cotton is strong on its own news of spot demand, spot hesistance and bullish weather.—Kofler to Clark & Co.

New York.—Think oil the local trad-ers around the ring covered today; this makes local sentiment more bullish than before.—Hubbard to Reese. than before.—Hubbard to Reese.

Mexia, Tex., says: About four inches of rain fell over this county and still raining. Looks like a crop disaster.

New Orleans.—The advance continues on persistent rumors that thus far the steel strike favors the corporation rather than the unions. Disappointer shorts are covering in volume and their operations are hastened by the unfavorable weather outlook in the belt.—Shepard & Gluck.

& Gluck.

Brady, Tex., wires: Have general rain over this entire belt, damaging crops; stil iraining: water everyhere.

New York.—A more cheerful view is being taken on steel strike, and is influencing all commodities markets. As to cotton, the crop advices coming in are distinctly bullish Sellers are few and the least demand causes prices to advance. Yet fundamental conditions are unchanged. It is a very mixed situation and not fully discernible.—Fallon to Shepard & Gluck.

Grain Grain.

Chicago-Owing to shortage of ship-ping, the space allotment committee anping. the space allotment committee announces that it will take two years to remove the cargo now waiting in ports of Australia. The cold storage space in every Australian state is exhausted. The following amounts of produce are held up: 3.255 tons of wheat, 1,220,000 bales of wool, 50,000 tons of meat, 23,000 tons of rabbits, 80,000 tons of other foods.—McKinnon to Clark. Total visible: Wheat, 77,577,000 va. 73,930,000; corn, 1,750,000 vs. 5,149,000; cars, 12,298,000 vs. 26,595,000. Toledo, O., wires: "They are reporting two cars new corn in Kansas City."
Chicago — Visfbie: Wheat, increase, 7,552,000; corn, increase 290,000; oats decrease 35,000.

Memphis receipts: Corn 23, oats 40 and hay 42 cars. Hog receipts: Chicago 23,000, Omaha 1,700, Kansas City 8,000, St. Joseph 5,000, Sjoux City 3,000, St. Louis 9,500 1,000, Sioux City s,000, St. Louis 7,000, Chicago Receipts: Wheat 667,000, corn 273,000, oats 312,000. Shipments: Wheat 1,127,000, corn 71,000, oats 197,000. St. Louis—Receipts: Wheat 491,000, corn 64,000, oats 165,000. Shipments: Wheat 228,000, corn 12,000, oats 80,000. Chicago.—Eastern houses buying corn now; looks like short covering.—Bab-sock to Clark & Co.

now; looks like short covering.—Babcock to Clark & Co.
Chicago.—Local elevator man says:
"At 2c over Dec., May oats are cheap."
Country advices of consignments very
light. Sales to arrive very small. Eastarn demand overnight quiet, but locals
did not offer out generally.—Wagner.
Forecast grain belt: Illinois, Wisconsin, fair and cooler with probably frost
in Wisconsin, Missouri, Lowa and Kansas, fair Minnesota, Dakotas and Nebraska, fair and warmer.
Chicago.—A week of more will be required to size up the steel strike. It
may spread to other industries. Most
people believe it will fall. Locals expeet slower markets with no chance
of maintained bulges. The attitude of
Gary again suggests the move of employers to beat the various labor unions individually. Grains may be lower
today with a late raily.
Chicago.—The move by farmers to
organize and hold prices does not appear serious. It lacks public sympathy.
Many believe 12.10 corn on farms a
big price prorata with general wages
now paid. Heavy rains have prevailed
in the grain belts with the Northwest
and a few odd spots excepted. The
central and southwestern belts, however, are practically covered with a
Sunday record of 1 to 2 inches in an
extraordinary number of sections. Part
of Kansas may require more rain. Winter wheat belt and pasturage sections
are now thoroughly relieved.—Wild to
S. & G.

Stocks.

New York—It is romured the United States Steel corporation may be in the market for a large amount of common stock for distribution among employes under the profit-sharing plan. It is said this amount may go to 150,000 shares, as the last subscription offered under the plan amounted to 156,868 shares.—Dow-Jones. Washington.—For eight months ended with August, exports were valued at \$5,275,000,000, against \$4,000,000,000 for the same period in 1918. Import for eight months ending with August, increased from \$2,061,000,000 in 1918 to \$2,283,000,000 in 1919.

New York.—Stockholders of Sinctair Oil and Refining company ratified con-solidation of company with the Sinciair Consolidated Oil corporation on basis of a share for a share—Dow-Jones. New York.—A prominent steel house with excellent facilities for learning real situation in steel districts was a big buyer of United States Steel common this morning.—Dow-Jones.

this morning.—Dow-Jones.

New York.—Samuel Gompers was scheduled to address the annual convention of the advertising business men at New Griesans. On account of the steel atrike he was unable to be present, but his speech has been forwarded I have seen extract from it and consider it will be received as a constructive document. He attributes much of the present labor unrest to the high cost of living and very plainly says that labor is equally responsible with capital for the constition existing and that only increased individual production can remedy the situation permanantly—Morse.
